

North Creek Community Center

Case Study

Pickleball, Tennis and Futsal LED Lighting

Solarone Vision System (30) RT410FL-260W

Customer Profile

North Creek Community Center features meeting room, community rooms, swimming pool, tennis courts, pickleball courts, soccer court, a tot lot, nature study and walking paths.

Scope of Work

Montgomery Village Foundation was looking to improve the lighting on the sports courts at this facility. The Mledtech design team came up with a lighting layout to meet IES recommended lighting levels while allowing for the Owners to reuse the existing poles and structures.

The Solution

Once again, our RT410FL-260W sports light proves why it is our banner product and the perfect LED retrofit solution for sports courts!

The Results

Solarone approaches each project as a unique opportunity to exceed the customers', the players' and the observers' expectations in terms of improved lighting delivered, improved visual comfort and operational savings. Our process steps help streamline this effort. We will meet directly with financial decision makers to go over final proposal in detail. Solarone will work with the customer's contractor to provide them with detailed computer aiming points which can be set while on the ground.
