

Pickle N Par

Case Study

New Construction (56)
RT400HB-100W

*"They are very happy.
The facility is open, and
busy."*

-Guy Chimay
Green Arc Energy Advisors LLC

Customer Profile

Pickle N Par is the first and only dedicated indoor Pickleball courts on Long Island. Great surface superb lighting provide a beautiful setting to play. Not to mention the organized play sessions and top notch instructors. This is THE place to play pickleball when visiting New York.

Scope of Work

Solarone was contacted during the Summer of 2019 by our partners at Green Arc Energy Advisors. They were looking for an LED lighting solution for their customer, Pickle N Par's new indoor pickleball facility. The desired goal was to light the courts to competition level standards while maintaining visual comfort for players and spectators alike.

Our design team was able to put together a design and supply fixtures for this project, and the results speak for themselves.

The Solution

RT400HB100W recreation series high bay was the exact product needed to achieve the desired results.

Enhance Human Performance

The Results

Solarone approaches each project as a unique opportunity to exceed the customers', the players' and the observers' expectations in terms of improved lighting delivered, improved visual comfort and operational savings. Our process steps help streamline this effort. We will meet directly with financial decision makers to go over final proposal in detail. Solarone will work with the customer's contractor to provide them with detailed computer aiming points which can be set while on the ground.
